

1.

Question 1

At what stage of the data lifecycle would you establish which third-party vendors in your supply chain will have access to the data you are collecting?

1 / 1 point

Data Storage

Data Sharing

Data Processing

Data Acquisition

ANSWER; (B) Data Sharing

Correct

It is in the Data Sharing phase of the data lifecycle that you establish which third-party vendors will have access to your data, and how they will be held accountable to the same regulations you are liable for.
